About Institutional Financial Markets, Inc.

IFMI is an investment firm specializing in credit-related fixed income investments. IFMI was founded in 1999 as an investment firm focused on small-cap banking institutions, but has grown over the past decade into a more diversified fixed income specialist. Our three operating segments are: Capital Markets, Asset Management, and Principal Investing. Our Capital Markets segment consists of credit-related fixed income sales and trading as well as new issue placements in corporate and securitized products. Our Asset Management segment manages assets through listed and private companies, funds, managed accounts, and collateralized debt obligations. As of December 31, 2010, we managed approximately \$10.3 billion in credit-related fixed income assets in a variety of asset classes including U.S. trust preferred securities, European hybrid capital securities, Asian commercial real estate debt, and mortgage- and asset-backed securities. Our Principal Investing segment is comprised primarily of our investments in the investment vehicles we manage. For more information, please visit www.ifmi.com.
