About Cohen & Company

Cohen & Company is a financial services company specializing in fixed income markets. It was founded in 1999 as an investment firm focused on small-cap banking institutions but has grown to provide an expanding range of capital markets and asset management services. Cohen & Company's operating segments are Capital Markets, Asset Management, and Principal Investing. The Capital Markets segment consists of fixed income sales, trading, and matched book repo financing as well as new issue placements in corporate and securitized products, and advisory services, operating primarily through Cohen & Company's subsidiaries, J.V.B. Financial Group, LLC in the United States and Cohen & Company Financial Limited in Europe. The Asset Management segment manages assets through collateralized debt obligations, managed accounts, and investment funds. As of June 30, 2019, the Company managed approximately \$2.8 billion in fixed income assets in a variety of asset classes including US and European trust preferred securities, subordinated debt, and corporate loans. As of June 30, 2019, 82.7% of the Company's assets under management were in collateralized debt obligations that Cohen & Company manages, which were all securitized prior to 2008. The Principal Investing segment is comprised primarily of investments that we have made for the purpose of earning an investment return rather than investments made to support our trading, matched book repo, or other capital markets business activity.
